

# H5RS Starter Box

HARD

## HARD6518 - HARD H5RS Starter Box

The new HARD H5RS starter boxes are not only highly functional and durable, but the finish and styling are unmatched in the RC industry and competitive pricing makes it a deal you can't refuse. Our engineers build into our products the features racers want, need and even a few things you never thought of. Above all, having the power to get the job is the bottom line and the H5RS starter boxes have more cranking power... and then some.

There is nothing worse than having your starter box grind to a halt, trying to turn a big block engine's flywheel. Designed with more power than most other starter boxes, the H5RS On-road and Off-road boxes use the incredibly powerful, high-torque 775 size motors that can handle any size RC vehicle from 1/8 scale buggy to touring car.

### Features:

- Awesome starting power
- Durable and versatile
- Smart power options

Hi-Torque 775 motor

Adjustable design

Solid rubber feet

Venting slots
